

Exhibit D: Company Support for Research Programs

Cirtec Medical is a vertically integrated, full-service outsource partner providing end-to-end product design, development, and manufacturing of Class III and II medical devices and components. We specialize in today's most advanced product technologies including, neuromodulation, custom ASIC design, thin-film leads, flex circuits, complex delivery systems and more. Cirtec has a global footprint with facilities in Brooklyn Park, MN; Chandler, AZ; Enfield, CT; Los Gatos, CA; Lowell, MA; Alajuela, Costa Rica; and Birkenfeld, Germany.

We can help your medical device design progress quickly, predictably, and cost-effectively through every phase of the product development lifecycle including:

- Program Management
- Design and development
- Clinical build and regulatory support
- Assembly and manufacturing
- Sterilization

Cirtec is not able to provide in-kind resources. However, research collaborators can leverage the ACCEL+ Neurostimulator Platform and Cirtec's comprehensive support services to advance and accelerate research programs if funding is allocated for these resources.
